The Undercliff
Bembridge I.W.

LL7247

By Appointment.

TUCK'S POST CARD

CARTE POSTALE. POSTKARTE.

The Undercliff is the great feature of the southern coast of the Isle of Wight. The lofty cliffs (400 to 500 feet high) have been left by some convulsion of Nature centuries ago. These landslips have an open space between the cliff face and the sea, the rough character of which, covered as it is with luxuriant growth, makes the Undercliff a delightful and popular excursion.
